UBPC_UBaerialIR_SAD081616.pptx

I'm trying to tie up loose ends before leaving to Ottawa for two months. Did either of you provide comments on this presentation that we made to our Region 8 State Air Directors and that the National O&G Emission Inventory Workgroup has requested? (the ND Air director told them about it).

Thanks,

Cindy Beeler

Subject: CENSARA and National O&G Emission Inventory Workgroup Request for Presentation

CENSARA and the National O&G Emission Inventory Workgroup have requested I present at the next National O&G EI meeting on 9/8 about what I had presented to our Region 8 State Air Directors a week or so ago (attached). Topics included our EPA Uinta Basin pneumatic controller research project and the *potential* project for a Uinta Basin Aerial IR Survey to find & fix “super-emitters” to be led by BLM in context of enhanced mitigation requirements in NEPA projects. Terry O’Clair, ND Air Director

mentioned the presentation to CENSARA and hence the request. The audience will include many different States' air staff.

I need to get back to CENSARA/National O&G EI to let them know
